

Ready to Return Stage 2: Limited Club Activity

Resumption of Table Tennis Club Activity: Risk Assessment Template

Introduction:

To enable table tennis to return safely to clubs and other indoor venues, Table Tennis England have been working on a set of recommendations that can enable table tennis to start again safely. It is important to note that these will be a set of recommendations for clubs, leagues, coaches and other organisations to implement and will need to be adapted for individual environments.

The Risk Assessment Template outlined below provides some areas for Clubs and Leagues to consider when preparing to return for activity following the Coronavirus Pandemic. The latest Government Guidelines should always be considered, and the below may need to be adapted for individual venues to ensure that Government Guidelines can be adhered to.

This document is not designed to replace any existing risk management structures or systems adopted by the respective clubs and leagues. It is intended to complement existing risk management systems to support the safe resumption of community table tennis.

How to use this Template:

The template below outlines some of the hazards/risks that a Club or League may need to consider when returning to activity.

Pages 2 to 10 provide a space for recording all of the potential hazards or risks that you can think of for your venue. We have added some to help get you started – these may need to be adjusted to suit your Club or League's circumstances.

Page 11 helps to assess the severity and likelihood of the hazards to assist in prioritising action to be taken. **Again, these may vary depending on individual Club and League circumstances.**

The Risk Assessment Template may be further supported by the Template Method Statement that can also be found in the Stage 2 Guidance, along with a number of other guidance notes and templates that are referred to throughout this document. All of these can be found here;

Risk/Priority Indicator Key

Severity (Consequence)
1. Negligible (delay only)
2. Slight (minor injury / damage / interruption)
3. Moderate (lost time injury, illness, damage, lost business)
4. High (major injury / damage, lost time business interruption, disablement)
5. Very High (fatality / business closure)

Likelihood
1. Improbable / very unlikely
2. Unlikely
3. Even chance / may happen
4. Likely
5. Almost certain / imminent
